INTRODUCTION

I have been a member of the American Air Mail Society for many years and during that time I have not done anything useful, except the payment of annual dues. One of the rules I have always adopted is if you are a member of a Society you should do something to further the cause of that body.

My opportunity came when I read the President's Message in the December 2008 Air Mail Journal that he wanted somebody to up date the Index of the Air Post Journal so I volunteered little knowing of the task that I was undertaking. I am not a professional indexer but have had a little experience in indexing magazines in the UK.

The task was to index the magazines from 1990 to 2008 (228 magazines) roughly in line with the index published in 1992.

As previously stated the index continues from the previous edition except that I have included items from Letters to the Editor. I feel that there is much information contained in these letters which is of value to aerophilatelists.

To quote the previous index "The APJ Index is meant to be a document helpful, but not comprehensive" and I have tried to continue in this vein.

That said I hope that the Index will prove to be of some use. Needless to say any errors, omissions etc are entirely down to me.

JNH
